## Bulk handling of liquids, powders and solids

- Heavy duty folding bulk box, can be fitted with polythene bag for the storage and distribution of liquids, pastes, powders and granules.
- Strong and safe: securely stacks up to 5 units high carrying a unit load of 1,360 Kg – a combined load of 6.8 tonnes!
- Fitted with polythene liner, Citadel has been designed for the storage and distribution of a wide range of contents including sauces, pastes, purées, fruit juices, powders and granules.
- Citadel, without liner, is ideal for heavy duty Automotive and general manufacturing applications including distribution of panels, machine parts, components in bulk, etc.
- Smooth surfaces, inside and out, allow easy cleaning.
- 4-way entry for fork lifts and pallet trucks.

Side panels snap-lock together

Locking feature secures lid to assembled unit

Recessed areas can be printed with owner's details or fitted with label holders

Support bridge securely holds poly liner in place during filling

Easy and quick to assemble and fold
