

*Distribution: ideal for delivery of frozen or chilled produce (ref. ISO23).*

## Temperature control

Allibert Buckhorn insulated containers and liners are the ideal distribution solution for a wide range of frozen and chilled applications, including fresh and frozen food retail distribution, home shopping deliveries, catering, pharmaceutical distribution, medical applications (e.g. blood, plasma, vaccines), police forensic evidence, etc.

### Insulated containers & cabinets

- Insulated containers are manufactured in polyethylene, with polyurethane foam filled cavity walls and base, for a working temperature from  $-40^{\circ}\text{C}$  to  $+40^{\circ}\text{C}$  (ref. ISR03 is operational down to  $-60^{\circ}\text{C}$ ).
- Insulated mobile cabinets are also available in sizes up to 1,600 litres, details available on request.

### Insulated liners and covers

- Insulated liner and cover keep contents frozen, chilled or piping hot.
- The insulated liner fits 50-litre Attached Lid Container ref. 1005B (see page 34).
- Includes Velcro closure and two carrying straps.
- Easy to remove and wash.
- The insulated cover, together with mobile rack, accepts a number of 600 x 400 Euro stacking container combinations.
- Secure Velcro closures help to maintain temperature.
- Covers can be tailor-made to order (subject to a minimum order quantity).

*Catering: delivery of frozen produce on standard transport (ref. ISD20).*

*Home shopping delivery: preparation of fresh and frozen orders (ref. ISO51).*
