

Retail distribution: protection of heavy or fragile items (ref. 10020)

Deliveries: comfortable hand holds ease manual lifting. Containers nest when empty saving space on return vehicles (ref. 10040).

Retail distribution: 400 x 300 containers stack on 600 x 400 models providing a versatile distribution medium (ref. 10020 - 10025 - 10040).

Security in distribution

- Secure: unique tamper-evident security seal fixing.
- Strong: stacking from five to eight high carrying a unit load of between 25 and 70 kg (depending on model).

- Integral lid: hinged lid cannot be separated from container and lost.
- Multiple labelling options; drop-in card label holder

Palletised distribution of loaded boxes and return of empty nested boxes.

Pharmaceutical manufacture: Hygienic storage and handling (ref. 1006B).

and adhesive label pimple pad on both ends. Bar code labels can be fitted to all sides, lid and base.

- Space Saving: nesting up to 75% when empty saving valuable space on return transport (4 columns of 600 x 400 mm nested containers occupy a 1,200 x 1,000 mm pallet).

Pimple-Pads allow easy removal of adhesive labels

Containers ref. 10020 & 10025 stacked on 600 X 400 Attached Lid Container

Secure stacking, nesting to 75% when empty (ref. 1005B).
